Published HIV Linkage and Engagement Articles

The staff of the George Washington University HCC National Program Office maintains this article list to promote a learning community of individuals working to improve linkage, engagement, and retention among HIV positive individuals. Please send relevant citations not included in the list to HIVcarecollaborative@gmail.com.

Search criteria: US published articles in peer reviewed journals. Search words include HIV+linkage, HIV+engagement, HIV+navigation, and HIV+retention.

Avery AK, Ciomcia RW, Lincoln T, Desbrais M, Jordan AO, Rana AI, Machekano R. Jails as an opportunity to increase engagement in HIV care: findings from an observational cross-sectional study. AIDS Behav. 2012 Sep 28.

Bocour A, Renaud TC, Udeagu CC, Shepard CW. HIV partner services are associated with timely linkage to HIV medical care. AIDS. 2013 Nov 1.

Maccarthy S, Bangsberg D, Fink G, Reich M, Gruskin S. Late presentation to HIV/AIDS testing, treatment or continued care: clarifying the use of CD4 evaluation in the consensus definition. HIV Med. 2013 Sep 11.

Last Update: January 16, 2014

Norton WE. An exploratory study to examine intentions to adopt an evidence-based HIV linkage-to-care intervention among state health department AIDS directors in the United States. Implement Sci. 2012 Apr 2;7:27.

Purcell DW, Latka MH, Metsch LR, et al. Results from a randomized controlled trial of a peer-mentoring intervention to reduce HIV transmission and increase access to care and adherence to HIV medications among HIV-seropositive injection drug users. J Acquir Immune Defic Syndr. 2007;46(Suppl 2):S35–47.

Sabharwal CJ, Braunstein SL, Robbins RS, Shepard CW. Optimizing the use of surveillance data for monitoring the care status of persons recently diagnosed with HIV in NYC. JAIDS. 2013 Dec 8.
